

Timber Pro UV Internal Wood Stabilizer

Permanent Water Holdout

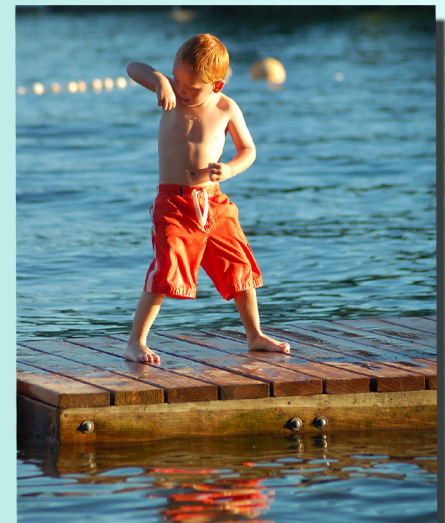

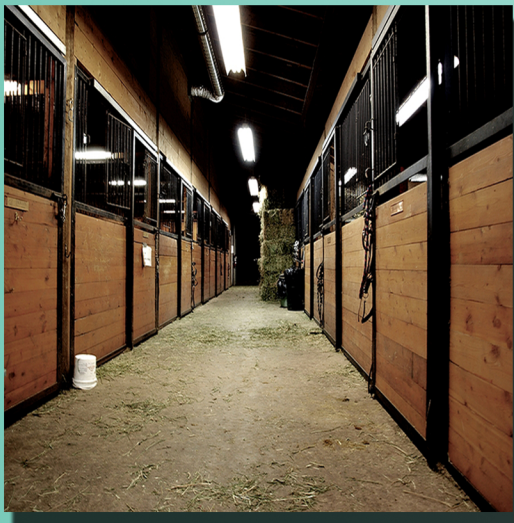

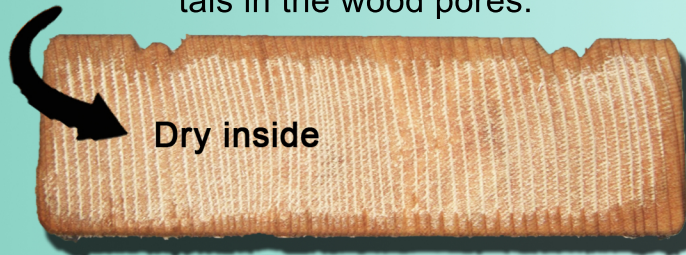

A nontoxic alternative for preserving your wood... the healthy way.

A permanent, penetrating, non hazardous, zero-VOC waterproofer and stabilizer for wood that is in frequent contact with water or moisture.

Waterproof...

- ✓ Garden Boxes
- ✓ Docks and Bridges
- ✓ Chicken Coops
- ✓ Animal shelters
- ✓ Birdhouses
- ✓ And more...

Cedar treated with IWS and then submerged in water for 90 days. Upon removal it was immediately cut in half to demonstrate water absorption of only 1/8 of an inch. IWS forms permanent glass crystals in the wood pores.

For projects like these, it's the natural choice.
